

## **Child Care Illness Reporting**

Do symptoms require exclusion?

■No■

Contact parent/guardian to notify of child's symptoms.

Yes

Separate child from group and contact parent/ guardian to pick up child. In the event of a vomiting incident children should be removed from the area until <a href="Body Fluid Clean Up Steps">Body Fluid Clean Up Steps</a> have been completed.

If symptoms worsen

Provide parent/guardian illness documentation and requirements to return to care (24 hours symptom free without medication).

Don't Forget

Yes 📗

In areas where the child has been:

- 1. Use the Body Fluid Clean Up kit (a.k.a. barf bucket ) to clean up spills if needed.
- 2. <u>Clean and disinfect</u> surfaces which may be contaminated.
- 3. Clean and sanitize mouthed items.
- 4. Launder soft items.

Check the **Illness Log**.

3 or more children/staff in a group with diarrhea or vomiting in the last 72 hours, one case of bloody diarrhea OR the child is diagnosed with a reportable disease.
